On motion, the report was referred to a committee, consisting of Z. S. Spalding, P. C. Jones, J. M. Lidgate, to examine and report upon it.

A discussion followed on a motion to proceed to the election of Trustees for the coming year, but an amendment, to defer the election to a later stage of the session, prevailed.

Col. Z. S. Spalding read the report of the committee on labor, which was accepted, placed on file and ordered to be printed.

The report of the Committee on Cultivation was called for, but it was stated that the Chairman was absent from the committee; hence no report was forthcoming.

The Committee on Machinery then reported through their Chairman, Mr. J. M. Lidgate.

The report was received, ordered to be placed on file and printed.

Adjourned to 2 o'clock p. m.

AFTERNOON SESSION.  
The meeting resumed at 2 o'clock. The special committee on the Treasurer's statement reported the number of shares of the stockholders on the books of the company to be 14,000. The assessment of 10 cents per share for last year had not been paid by all. There was great difficulty in collecting the assessment. Committee recommended that the funds for the coming year be raised by subscription.

The Treasurer's report was accepted and ordered to be placed on file.

The Committee's report was on motion accepted, with thanks, and the Committee discharged.

A motion was passed that an assessment of five cents per share of stock be levied and collected forthwith.

It was also, on motion, resolved that an annual fee of five dollars be paid by each member of the company.

The subscription to the *Planters' Monthly* was ordered to be reduced to \$2.50 per annum.

Mr. S. B. Dole, chairman of the committee on legislation, referred the meeting to Mr. T. R. Walker as the committee man who had done the principal part of drafting the report.

Mr. Walker read the report. It set forth that the circumstances of this meeting were satisfactorily different from those of any previous meeting. There was now a probability of the reasonable views of planters being given some consideration by the Government of the country. The committee would place on record their approval of the recent constitutional changes. They wanted supervision of the appointment of police and district justices placed in the hands of

the Supreme Court. The Supreme Court Act of last session did not remedy anomalies in the Judiciary system, as the judges still sat in review of their own decisions at term, chambers and circuit. A distinct appellate court was required. Taxation of growing crops of cane was condemned, and a substitute plan recommended. This recommendation was afterward amended owing to its conflict with existing trade conditions. Reference was made to the importance of cheap labor. A reduction of the rate of taxation fixed by last Legislature was considered necessary. Approval of the Homestead Act was expressed, together with suggestions for its amendment. The expiration of the first year's opium license was regarded as giving an opportunity for ending that mischievous traffic.

After a short discussion of the taxation question, resulting in the amendment to the report above mentioned, the document was ordered printed.

Mr. J. M. Horner read the report of the committee on transportation, also letters from other members of the committee on the subject. The report stated in effect that it was generally held that the best methods for varying conditions of different plantations were in vogue on the islands, and that discussion was therefore chiefly important regarding details. Water fluming was the favorite plan as the cheapest, wherever it was practicable.

Mr. E. M. Walsh, of Paia, read the report of the committee on the manufacture of sugar. The planters of these islands had met the fall in prices of a few years ago by adopting, at great expense and without hesitation, the double crushing mills. Thirty-three of these would be in operation next year. Those made at the Honolulu Iron Works were superior to the imported ones. Now the plantations could make a fair profit in spite of the low prices. The report discussed several technical points at length.

Mr. J. M. Lidgate, Chairman of the Committee on Machinery, read a report treating chiefly of the loss from waste of molasses. It was of a technical nature, and on taking the usual course was discussed with animation until adjournment.

The meeting adjourned a few minutes before 5 o'clock till 9 o'clock Tuesday morning.

## SECOND DAY.

The sessions of the annual meeting of the Planters' Labor and Supply Company were resumed Tuesday, at 9 o'clock a. m., the president, Mr. H. P. Baldwin in the chair.

Minutes of Monday's session were read and approved.

Mr. J. M. Horner presented and read a paper on coffee culture.

On motion, the paper was accepted, and with a few changes, ordered to be printed in the *Planters' Monthly*.

Mr. T. R. Walker presented and read a paper prepared by Mr. J. Forsyth, on coffee culture. The paper was ordered to be published in the *Planters' Monthly*.

On motion, a committee was appointed to make arrangements for the publication of the *Planters' Monthly*. The Chair appointed a committee accordingly, consisting of Messrs. Spalding, Jones and Walsh. Adjourned to 2 o'clock p. m.

AFTERNOON.  
On resuming, the election of trustees was proceeded with, and resulted as follows:

H. P. Baldwin, 9,300  
H. F. Glade, 9,300  
P. C. Jones, 9,300  
J. B. Atherton, 9,300  
W. O. Smith, 9,190  
C. M. Cooke, 8,845  
Z. S. Spalding, 7,790  
J. M. Lidgate, 7,185  
F. A. Schaefer, 5,480

The report of the Committee on Labor was taken up for discussion. Mr. P. C. Jones stated that he had been informed that there are parties who propose to introduce Portuguese laborers at much less expense than heretofore, offering to bring them at an expense of \$65 each, whereas they have heretofore cost \$100 each. A general discussion of the subject followed.

On motion, it was resolved that the Trustees be instructed to confer with the Board of Immigration upon the matter of introducing more Portuguese laborers, and upon the subject of a revision of the contracts.

The subject of wages to Chinese day labor and the labor supply of the country was discussed at length, after which a motion was put and carried.

That the Trustees be instructed to take steps as early as they deem expedient to bring about a reduction of wages, to a uniformly graded rate, for Chinese laborers.

The meeting then adjourned to Wednesday morning at 9:30 o'clock.

## THIRD DAY.

The fifth session of the annual meeting of the Planters' Labor and Supply Company opened Wednesday at 10 o'clock, the president, H. P. Baldwin, in the chair.

Minutes of Tuesday sessions were read and approved.

The secretary reported that the election of the ensuing year resulted as follows:

H. P. Baldwin, President; H. F. Glade, Vice President; P. C. Jones, Treasurer; W. O. Smith, Secretary.

The report of the Committee on Fertilizers, prepared by Mr. R. A. Macfie, Jr., was presented by the President. The report will appear in the *Planters' Monthly*.

The meeting then proceeded to discuss the report of the Committee on Legislation; after which a motion passed to adopt the report and
